Allowable Subject Matter

Claims 1-4, 8-14 and 18-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of the independent claims 1, 11 and 21 are the inclusion of the following limitation that is not found in the prior art and they are uniquely distinct features. The closest prior art is Cassagnol et al (2002/0129245 A1; hereinafter Cassagnol). Cassagnol discloses an apparatus for providing a secure processing environment. Cassagnol also discloses a cipherer that uses a first key to decrypt imported information from a memory and uses a second key to encrypt the decrypted information. This art fails to anticipate or render the following limitations:

"Claims 1 and 21: automatically transitioning to a second key set when the count of the usage counter exceeds a defined threshold, the automatically transitioning comprising:

modifying an access table to indicated that encrypted data in a current data location is to be decrypted using the first key set, and is to be re-encrypted using the second key set when undergoing storage to a new data location;

modifying the access table further with the new data location being defined for encryption and decryption with the second key set."

"Claim 11: means for automatically transitioning to a second key set when the count of the usage counter exceeds a defined threshold, the automatically transitioning comprising:

means for modifying an access table to indicated that encrypted data in a current data location is to be decrypted using the first key set, and is to be re-encrypted using the second key set when undergoing storage to a new data location;

means for modifying the access table further with the new data location being defined for encryption and decryption with the second key set."

The dependent claims 2-4, 8-10, 12-14 and 18-20 are allowed because they were originally found to include a unique feature not found in the closest abovementioned art.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
